automotive CAECompanion 2012

In 2012 carhs publishes the second edition of the automotive CAECompanion. Just like the well know SafetyCompanion it features expert seminars and provides valuable engineering knowledge, labelled CAEWissen. The CAE Wissen pages cover CAE relevant topics like functional development, material characterization or CAE technology in the automotive industry. The value added by these knowledge pages ensures that this publication receives the long term attention of its readers.

With your advertisement you directly reach CAE experts in the automotive industry.

In the popular pdf version we link your ad directly to your homepage.
